The FTGS Platform

• One-time profile and product setup lets you retain your information for future use.

• The system will guide through meeting the legal requirements for getting your CFS and GMP.

• Once the certificates have been approved by the chamber, the system gives you the option to have them legalized with the click of a button, with the ability to choose the final destination of the certified documents.

• The platform gives you visibility, transparency and compliance, all in one place.

Forward Thinking
A Wish and a Dream...

- Foreign governments accept export documents digitally.
- Certificates issued in multiple languages.
- The platform will be a one-stop solution for US brands.
Q&A

- How can I compete with foreign manufacturers who manufacture the same product at 40% lower costs?

- Do I have to register my products every time I ship to the same final destination?

- Is the labeling requirement the same in every country?

- Should all documents be legalized for registration?

- I have been shipping my goods into a foreign market without registration. Why should I bother to register my products now?

- Do all Certificates of Free Sale come from FDA?

- How can the FTGS/LA Chamber platform be helpful to my company?

- Should my business contracts be legalized?

- How soon should I plan for my export documents?
